CAREER OBJECTIVE :

- To be innovative and gain more knowledge that can bring all those changes and improvement in me required for the development of my organization and to secure a challenging position where I can effectively contribute my technical skill.
- To ensure challenging position in a growing organization where I would be able to utilize my capabilities to the best extent and in the process add value to the organization and my career.
- Consistently strive to create a challenging and engaging learning environment in which students become lifelong scholars and learners.

SKILLS AND COMPETENCES :

- I work with dedication in every task. I am always focused to create a friendly environment to get along with different people. I remain calm and cool under pressure and sustain it when dealing difficult situations and I like busy and challenging environment.
- I have worked in various group tasks involving 2 to max 10 people. I learnt many new technical things during the time and exchange the knowledge.
- I am favorite among students for being honest and having supportive attitude. I always try my best to motivate, encourage and guide students in their carrier as well as in their individual lives.
